

Artificial Intelligence in Health Research Network Hui

****Due to overwhelming interest, the room has been updated to 505-011 (AMRF Auditorium, Grafton Campus)**

Background:

In 2023 the Prime Minister's Chief Science Advisor's (PM CSA) [AI in Health Report](#) highlighted the urgent need for AI digital tools in the New Zealand Health sector. A key recommendation from this report was the establishment of a national network or centre for AI research with a specific focus on health.

Responding to this call, a University of Auckland team has been engaging with key stakeholders in government and the health sector to help kickstart this Research Network and has garnered support from the Ministry of Health, Te Whatu Ora, MedTech-iQ, industry partners and academics across the motu.

With this support, we are delighted to share our progress with colleagues at the University of Auckland and invite you to join this growing network.

About this event

Members of the Network establishment team (Dr Rosie Dobson, Professor Gill Dobbie, Dr Daniel Wilson, Sir Ashley Bloomfield, Dr Michael O'Sullivan, and the Uniservices team) will provide an update on the initial work to establish the Network, internal and external stakeholder engagement and proposed focus of the network. This will be an interactive, in-person session with an opportunity for you to ask questions and share your experience.

In addition, Professor Robyn Whittaker (chair of the National AI and Algorithm Expert Advisory Group for Te Whatu Ora and member of the PMCSA Panel) will provide an update on AI within the New Zealand health sector and current priorities for research.

This in-person workshop is open to research staff at the University with an interest in AI in health research and being a part of this Network. We invite you to come along and hear about this emerging area of research and join us as we build this nationwide Network.

Date and Time: Tuesday 19 November 2024, 2.30-4.00pm

Location: *please note new room location of 505-011 (AMRF Auditorium, Grafton Campus)

Registration link: <https://www.eventbrite.co.nz/e/ai-in-health-research-workshop-tickets-1063838181639>

****Registration is required as space is limited.**

We hope you can join this discussion.
